REACH FOR THE HEART, a project under Art in Hospital and sponsored by Sin Sin, was proposed and launched in 2009 with the objective to fund workshops that are specifically designed to serve elderly patients with chronic diseases in the public hospitals. These geriatric patients are the most prone to anxiety due to their deteriorating health and lonesome feeling in the foreign and cold hospital environment, and it is our hope to help them go through this stage of life with joy and dignity

To make this beautiful project continue, just HKD4,000 you could support the expenses of all materials, experienced tutor and administration cost for elderly patients to enjoy a workshop for hours. Your generosity is highly appreciated in benefiting the elderly.
